Edge 1 – Smart-Capital DNA by Side

Each side is normalized to 100%. The shape shows whether capital is held by mediocre, strong, or elite historical traders without letting the larger side win simply because it has more open interest.

How Long Are Traders Holding? – Side A
Daily age mix of open shares for the market's first-listed outcome. The stacked areas total 100%; the black line is that outcome's market price. A full exit followed by a re-entry starts a new holding period.

This chart type isn't supported in native view yet – see it in Embedded mode.

Member Directory (25% sample, all holders + other markets owned)
All current holders of this market (25% deterministic sample), each with a count of other markets they hold positions in.
